ALTEMA SHP (SUPER HIGH PERFORMANCE) RED MINERAL OIL DISC BRAKE FLUID

Lubricants - Mineral Oil

ALTEMA SHP (SUPER HIGH PERFORMANCE) RED MINERAL OIL DISC BRAKE FLUID

ALTEMA SHP RED is a super high performance mineral oil brake fluid, designed for use in hydraulic brake systems where a mineral oil brake fluid with a VG of ISO 15 is required . SHP RED is not hygroscopic like a DOT Glycol type fluid, and will remain in spec provided no contamination takes place. Only highly refined synthetic type base stocks are used in the manufacturing and blending process.

TECHNICAL DATA

KINEMATIC VISCOSITY @ 40 °C	13.8 Cst
Appearance	RED
Conformation requirement	ISO 11158:2009

Author EM
Revision 2/11.21
